

Prakash Karekar

SOFTWARE DEVELOPER

Bengaluru, India · prakashkarekar4@gmail.com · linkedin.com/in/prakashkarekar

PROFILE

Software Developer focused on building scalable web applications, backend systems, REST APIs and mobile solutions. Experienced with Django, React, Flutter and production deployments on Linux infrastructure.

EXPERIENCE

Software Developer

Apr 2025 — Present

Theta Dynamics Pvt. Ltd.

- Developed and maintained Django and Node.js backend services for production client applications.
- Built scalable REST APIs for logistics, vehicle management and user operations; integrated Django services with Flutter applications.
- Designed and deployed responsive business websites on Linux VPS infrastructure with Nginx and Gunicorn.
- Managed environment setup, production logs and troubleshooting; improved deployment workflows and reduced downtime.
- Collaborated through agile development, code reviews and production support.

Django · Node.js · Flutter · REST API · Linux · Nginx · Gunicorn

Cybersecurity Intern

Sep 2024 — Mar 2025

Eyesec Cybersecurity Solutions

- Developed a breach detection system handling more than 14 million compromised password records.
- Built a Python password-strength engine using entropy calculations.
- Integrated Nmap and Wireshark for security and network analysis.
- Helped reduce security audit effort by approximately 60% and improve compliance reporting accuracy by approximately 30%.

Python · Nmap · Wireshark · Cybersecurity

SELECTED PROJECTS

Rotra Logistics

A production logistics platform connecting operations, vehicles and people. Built with a Django REST Framework backend, integrated with Flutter, and deployed on Linux infrastructure.

Django · Django REST Framework · Flutter · Linux · Nginx · Gunicorn | rotralogistics.com

ThetaTracker

A role-based, full-stack internship management system. One connected workspace for interns, supervisors and administrators.

Django · JavaScript · Database · REST API | thetadynamics.in/thetatracker

CertifyPro

From a single achievement to thousands. A scalable platform for automated bulk certificate creation and verification, serving 500+ clients and generating 10,000+ certificates.

Django · Python · QR · Database | thetadynamics.in/certificate

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C, C++, PHP

Backend & APIs: Django, Django REST Framework, Node.js, REST APIs, WebSockets

Frontend: React.js, HTML5, CSS3

Mobile: Flutter, Dart, Android, Java/XML

Databases: MySQL, PostgreSQL, MongoDB, Firebase Realtime Database

DevOps: Linux VPS, Docker, Nginx, Gunicorn, Git, GitHub, GitHub Actions

Security: Kali Linux, Burp Suite, Nmap, Wireshark, Logging, Troubleshooting

EDUCATION

B.E. Computer Science & Engineering — CGPA 8.7 / 10

Angadi Institute of Technology and Management

CERTIFICATIONS

Google Cybersecurity Professional · AWS Cloud Practitioner — NASSCOM · AWS Solutions Architect · AWS Cloud Security Foundations · CNSP — TheSecOps Group · Cybersecurity with Python — Cyber Vidyapeeth

LEADERSHIP & ACHIEVEMENTS

- Invited as Chief Guest at Bagalkot Engineering College for a technical session on software development.
- Invited as Chief Guest at HSIT Nidasoshi and delivered a technical talk to engineering students.
- Tech Team Lead at BelPy 2024 International Python Conference.
- Technical Head — AITM ACM Student Chapter. Karnataka Regional Student Coordinator — ACM India Council.
- Delivered 12+ technical workshops across multiple Indian states, helping students turn ideas into working software.
